EU SWITCH Asia Circular Textiles Project - Finance Consultant to develop knowledge products focusing on financing opportunities

ICLEI World Secretariat seeks to appoint an individual expert or a company to develop and translate (English and Chinese) two finance-related knowledge products in the [EU SWITCH Asia project](#): Transitions to circular economy practices in textile and apparel Micro, Small & Medium Enterprises (MSMEs) along the lifecycle in Huzhou and Shaoxing. These knowledge products, as detailed below, aim to gather information and guide MSMEs to access finance.

Timeline for proposal submission

Date of publication: 30 August 2023

Last day for submission: 30 September 2023, 18:00 CEST

Notification of decision: Within 10 working days of submission close date

Send all enquiries and proposals (with the subject title: “Enquiry: External expert application_3_Switch Asia” or “Application: External expert application_3_Switch Asia”) to jaume.marques-colom@iclei.org and copy eszter.mogyorosy@iclei.org.

Background

The overall goal of the EU SWITCH Asia project: Transitions to circular economy practices in textile and apparel MSMEs along the lifecycle in Huzhou and Shaoxing is to facilitate the transition to circular economy practices in the textile and apparel industry in Huzhou City and Shaoxing City, China. Its specific objectives are:

1. Improved sustainable management, resource efficiency and adoption of circular economy principles by the local textile and

- apparel industry;
2. Conditions enabled for a conducive policy environment among key stakeholders for the circular textile and apparel industry in Huzhou and Shaoxing; and
 3. Increased access of the textile and apparel industry to financing for eco-design, recycling investments and clean technology transfer (Access Finance Component).

This Terms of Reference (ToR) is issued to support the third objective, Access Finance Component, which aims to:

- Mobilize MSMEs to develop and submit project ideas/interventions to the [Transformative Actions Program \(TAP\)](#);
- Provide Technical assistance to MSMEs for further development of their project concepts with the goal to increase capacity, bankability and access to finance;
- Assess financial sources and opportunities to finance circular projects in the textile sector in China;
- Connect MSMEs with Project Preparation Facility providers, and national and international financial institutions;
- Gather the learnings and knowledge from events and relevant project activities, and provide guidance for projects seeking green and circular finance (*Accessing Finance - Guidebook for Resource Efficiency and Circular Economy Projects*).

To illustrate the above, Figure 1 gives an overview of the overall workflow and the planned activities of the Access Finance component in the EU SWITCH Asia project: Transitions to circular economy practices in textile and apparel Micro, Small & Medium Enterprises (MSMEs) along the lifecycle in Huzhou and Shaoxing.

Figure 1: Workflow and Planned Activities

Specific Tasks

Through this activity, the consultant will undertake the following tasks to support the implementation of the Access Finance component of the EU SWITCH Asia project: Transitions to circular economy practices in textile and apparel MSMEs along the lifecycle in Huzhou and Shaoxing:

Task 1: Develop Accessing Finance - Guidebook for Resource Efficiency and Circular Economy Projects

The Guidebook shall provide consolidated information that supports textile and apparel MSMEs to access finance for the implementation of circular economy interventions and practices along their business activities/value chains:

- **Sub-task 1:** Conduct a mapping exercise to review and engage with relevant and available national and local financing institutions and initiatives for MSMEs with a focus on the cities of Huzhou and Shaoxing. This assessment will serve as a basis to engage potential funders. To ensure investors engagement and accompany the project, they will be invited to the Awareness-raising event taking place in September 2023 in China.
- **Sub-task 2:** Gather key recommendations, lessons learned from the submitted project ideas and throughout the project EU SWITCH Asia, as well as building on

Task 1 Sub-Task 1, and information provided from ICLEI, provide an assessment of available sources and opportunities of financing for projects regarding the circular economy principles implemented in the textile industry in China. Besides the focus on China, the Guidebook shall also contain information on financing instruments, case studies and recommendations on how to reach bankability that are globally relevant and applicable.

Task 2: Develop a pre-feasibility analysis report

As described in Figure 1, after the awareness-raising event MSMEs will be invited to submit their project/ intervention ideas to TAP, out of which ICLEI will select five. The consultant will work closely together with these MSMEs and prepare an analysis report with the aim to:

- (i) Provide a sound understanding on the projects’ recent status, strengths, weaknesses, needs and priorities, with a particular focus on their technical and financial viability; and
- (ii) Develop and present the MSMEs project-specific roadmaps for the next necessary steps in their development towards reaching bankability and technical feasibility, including recommendations regarding the most suitable financing instruments, models, and the most relevant and accessible financing sources to be considered.
